of Exceptional Children

EDUCATIONAL CENTRE – MOOLAKADAI

"An optimist looks for an opportunity in a problem "

In the early 2011 it became necessary to relocate Maithree's Perambur school to an alternate venue. Considering that the current venue catered to 10 young adults in its ground floor and to 54 children in its first floor this was no easy proposition. Ultimately an alternative was found for the 10 young adults their small number proved helpful. But for the 54 children even herculean efforts proved futile. This was when the idea arose " why not bifurcate the group into two groups", an idea that led to the birth of a totally new branch.

18 children from here became the starting point for Maithree's 8th branch at Moolakadai with 1 special educator cum physiotherapist, and 2 assistant teachers.
