EDUCATIONAL CENTRE – ULLAGARAM

“If Mohammed Cannot Go The Mountain, The Mountain Must Go To Mohammed”

There can't be a better quotation which puts across the genesis of the Ullagaram branch of Maithree's Special Schools.

Maithree's Special School, Tambaram had to cater to a very large geographic area. A few students were from Ullagaram -- about 15 kms from Tambaram. When commuting became formidable and the need for a special school in the areas surrounding Ullagaram also grew, Sruthi's parents Bama Gayathri and Illavarasu offered space in their home to start the sixth special school of Maithree. And thus was born Maithree Special School at Ullagaram on 28th August 2005.

The school which functioned in just two small rooms on the first floor in 2005 and has now transformed into a very thoughtfully planned and spacious school. It started off with just seven students and one special educator and has now grown.
